

Press Release

NICOSIA 24.05.2008

SUBJECT EXA HPC and the Environmental Fluid Mechanics Laboratory of the University of Cyprus to collaborate in an ERA-NET Project.

EXA HPC is to provide computational support to the Environmental Fluid Mechanics Laboratory (EFM), of the University of Cyprus, as part of the latter's participation in the 1st call for proposals to be funded by the URBAN-NET project. The title of the proposal is *"Towards an Optimization of Urban Planning and Architectural Parameters for Energy Use Minimisation in Mediterranean Cities"*. The URBAN-NET project addresses issues of urban sustainability in Europe and is funded by the European Commission's Framework Programme 6 under the European Research Area Network (ERA-NET) initiative. EXA HPC will provide the EFM with the necessary hardware and software infrastructure to run parallel computations.

More information on the EFM and the URBAN-NET project can be found at the following websites:

- EFM : <http://www.eng.ucy.ac.cy/efm>
- URBAN-NET project: <http://www.urban-net.org/>

About EXA High Performance Computing Ltd

EXA HPC is a Cypriot company active in the field of parallel, high performance, and multicore software development. It also provides integrated computational, research and technology development, and training and consulting services in the aforementioned fields.
